

RISHABH KESHARI

B.Tech CSE @ JNU '28 | BS Data Science @ IIT Madras '28
📞 7355301837 | ✉️ ishabhmy@gmail.com | [LinkedIn](#) | New Delhi, India

PROFESSIONAL SUMMARY

Motivated Computer Science and Data Science student with strong foundations in backend and frontend development. Skilled in Python, Java, JavaScript, C++, and SQL, with hands-on experience building diverse projects. Pursuing B.Tech (CSE) at Jawaharlal Nehru University and BS Data Science at IIT Madras — combining technical depth with data-driven analytical skills. Keen interest in Machine Learning, AI, and scalable web applications. Seeking internships and collaborative opportunities to bridge engineering with business intelligence.

EDUCATION

Jawaharlal Nehru University (JNU), New Delhi
B.Tech in Computer Science & Engineering
2024 – 2028

Indian Institute of Technology, Madras
BS in Data Science & Applications
September 2024 – September 2028

High School (2021)
Score: 92.83%

Intermediate / Class XII (2023)
Score: 93.20%

WORK EXPERIENCE

Cybersecurity Analyst – Virtual Experience

Nov 2025 – Apr 2026

Tata Consultancy Services (TCS) via Forage | New Delhi

- Completed a job simulation focused on Identity and Access Management (IAM) with a virtual Cybersecurity Consulting team.
- Applied IAM principles and cybersecurity best practices to design solutions aligned with business objectives.
- Developed comprehensive documentation and presentations communicating complex technical concepts clearly.
- Gained hands-on exposure to user lifecycle management, access control, compliance, and enterprise-scale integration.
- Strengthened skills in strategic planning, solution design, and alignment of IAM with digital transformation goals.

Data Labeling Analyst – Virtual Experience

Oct 2025 – Nov 2025

Forage Academy | New Delhi, Delhi

- Classified real customer support messages for intent, sentiment, and PII using a structured labeling schema.
- Handled ambiguous edge cases with clear, documented rationales to ensure consistency across the dataset.
- Reviewed peer labeling work, identified inconsistencies, and suggested actionable guideline improvements.
- Applied ethical privacy practices; strengthened skills in human-AI collaboration foundational to AI operations and ML support.

PROJECTS

JNU Health Management System

Python (Flask), SQL — A full-stack hospital management application with patient records, appointments, and staff management modules.

Face Recognition System

Python (OpenCV, face_recognition) — Real-time face detection and recognition system using computer vision libraries.

Content-Based Movie Recommender

Python, Scikit-learn — Recommends movies using TF-IDF vectorization and cosine similarity on metadata features.

Weather Prediction App

Python, ML — Predicts weather conditions using historical meteorological data and classification algorithms.

VocalInk

Python, Whisper API — Voice-to-text transcription tool leveraging OpenAI's Whisper model for accurate speech recognition.

Snake Game (C++)

C++ — Classic snake game built from scratch using C++ with keyboard controls and score tracking.

Additional: Personal Portfolio Website

TECHNICAL SKILLS

Languages

- Python, Java, C++, JavaScript, SQL

Frameworks & Tools

- Flask, MySQL, OpenCV, Scikit-learn, Whisper API

Data Science

- Data Analysis, Machine Learning, Model Building
- Foundation in IIT Madras BS Data Science curriculum

Web Development

- Frontend: HTML, CSS, JavaScript
- Backend: Flask, REST APIs

Concepts

- Identity & Access Management (IAM)
- Cybersecurity fundamentals
- Data Labeling & Human-AI Collaboration

Soft Skills

- Teamwork, Problem-Solving, Communication, Time Management

CERTIFICATIONS & ACHIEVEMENTS

- E-SUMMIT '25 Participation Certificate
- Introduction to Generative AI (Google)
- AI Impact Summit Buildathon
- Forage Academy – Data Labeling Job Simulation
- TCS Forage – Cybersecurity Analyst Simulation
- Digital Marketing Workshop
